Dolores Mosquera, MA is a psychologist and psychotherapist specializing in trauma, personality disorders, and dissociation. She is an EMDR Europe Trainer and director of the Institute for the Study of Trauma and Personality Disorders (INTRA-TP) in A Coruña, Spain.

This workshop will demonstrate how EMDR clinicians can safely utilize a wide range of EMDR interventions from early in the preparatory phase of treatment for patients with dissociative disorders. Our aim is to provide a comprehensive model for applying EMDR therapy in the treatment of dissociative disorders, extending the AIP model to address the kinds of dysfunctionally stored information found in those with the most severe forms of traumatization and dissociative phobias.
